

DuPont Medical Caution Statement

DO NOT USE DUPONT MATERIALS IN MEDICAL APPLICATIONS INVOLVING PERMANENT IMPLANTATION IN THE HUMAN BODY OR PERMANENT CONTACT WITH INTERNAL BODY FLUID OR TISSUES.

DO NOT USE DUPONT MATERIALS IN MEDICAL APPLICATIONS INVOLVING BRIEF OR TEMPORARY IMPLANTATION IN THE HUMAN BODY OR CONTACT WITH INTERNAL BODY FLUID OR TISSUES UNLESS THE MATERIAL HAS BEEN PROVIDED DIRECTLY FROM DUPONT UNDER A CONTRACT WHICH EXPRESSLY ACKNOWLEDGES THE CONTEMPLATED USE.

DUPONT MAKES NO REPRESENTATION, PROMISE, EXPRESS WARRANTY OR IMPLIED WARRANTY CONCERNING THE SUITABILITY OF THESE MATERIALS FOR USE IN IMPLANTATION IN THE HUMAN BODY OR IN CONTACT WITH INTERNAL BODY FLUIDS OR TISSUES.

THE CONTENT OF DUPONT MATERIAL IS NOT CERTIFIED FOR IMPLANTS. DuPont materials are not designed or manufactured for use in implantation in the human body or in contact with internal body fluids or tissues. DuPont has not performed clinical testing of these materials for implantation. DuPont will not assist any customers making implantable devices by providing notices or any other information required by regulatory authorities. DuPont has neither sought, nor received, approval from the United States Food and Drug Administration (FDA) or any other regulatory agency, for the use of these materials in implantation in the human body or in contact with internal body fluids or tissues.

DO NOT MAKE REFERENCE TO THE DUPONT NAME OR ANY DUPONT TRADEMARK IN ASSOCIATION WITH AN IMPLANTABLE MEDICAL DEVICE. Do not use a DuPont trademark as the descriptive name of an implantable medical device (e.g., do not call it "the Dacron® prosthesis").

ALL IMPLANTABLE MEDICAL DEVICES CARRY A RISK OF FAILURE AND ADVERSE CONSEQUENCES. Regarding implantation of materials, you should rely upon the medical judgement of the physician, the medical device seller and the FDA or other regulatory agency. Do not rely upon DuPont. Examples of both harmful consequences and life-saving benefits from the implantation of various materials can be found in published medical articles. Without performing clinical medical studies of an implantable medical device, DuPont cannot weigh the benefits against the risks of that device and cannot offer a medical judgement on the safety or efficacy of the use of our materials in that device.
